

MEMORANDUM

DATE: March 30, 1993
TO: LANL TA-35 TSL-85 Surface Impoundment File Red
FROM: Carl Stubbs, RCRA Permit Section
SUBJECT: Public Notice Date Change

The documents written for the public notice and comment period for clean closure of the surface impoundment do not reflect the proper dates for the notice. On March 24, 1993 I spoke with Linda Wood of the Los Alamos Monitor (newspaper) concerning the necessary lead time for a legal notice. Ms. Wood informed me that the legal notice must be in no later than 10:00 AM Monday, March 29 to be in the Tuesday, March 30 paper. The required letters, legal notice and fact sheet were written to accommodate this. On Monday, March 29 I FAXed the legal notice and followed up with a telephone conversation with the receptionist, who informed me that 2 days lead time were required for a legal notice. We revised the legal notice to reflect this adjustment during the conversation. The remainder of the documents were revised prior to mailing to reflect this change. Some of the letters may contain the incorrect date.
