Dear Ms. Hoditschek:

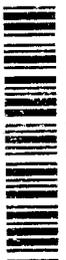

The Bureau of Indian Affairs, Albuquerque Area Office, Branch of Regional Water Rights Protection, has performed a review of the closure plan for the Los Alamos TA-35 TSL-85 Surface Impoundment, Los Alamos, New Mexico, Environmental Protection Agency, Identification Number NM0890010515.

The proposed closure plan appears to be satisfactory if the entire plan is implemented as stated in the closure documents.

Due to the historical environmental concerns of sacred tribal lands in the area, our staff from the branch will follow the progress of the facility closure. We wish to be included in any official communication and correspondence on this issue.

Sincerely,

Area Director
