Dear Ms. Hoditschek:

The purpose of this letter is to request an extension of time to respond to the Notice of Deficiency (NOD) received for the Research, Design, and Development Resource Conservation and Recovery Act permit application for the Los Alamos National Laboratory (LANL) Packed-Bed Reactor/Silent Discharge Plasma Treatment Unit NM0890010515. On June 3, 1993, Anthony Grieggs, LANL, and Jody Plum, SCIENITECH, Los Alamos Area Office, met with you and members of your staff to discuss this NOD. It is our understanding that all outstanding issues were resolved and we have agreed to provide the needed amendments to the New Mexico Environment Department.

By this letter, I am requesting an extension of time to submit the needed amendments beyond the original due date of about June 10, 1993, with the new submittal date being no later than the close of business July 1, 1993. This request has been discussed with Mr. Amindyas of your staff. It is my understanding that Mr. Amindyas has discussed this with you and that you have found this date acceptable. This letter confirms our verbal notification by Mr. Amindyas of this acceptance.

Sincerely,

Joe Vozella, Acting Chief
