CERTIFIED MAIL - RETURN RECEIPT REQUESTED

TA 35

Mr. Benito Garcia  
Bureau Chief  
New Mexico Environment Department  
Hazardous and Radioactive Materials Bureau  
525 Camino de los Marquez Place  
Santa Fe, NM 87502

Dear Mr. Garcia:

Enclosed is a reformatted copy of the Los Alamos National Laboratory's (LANL) Research and Development Permit Application for the Packed Bed Reactor/Silent Discharge Plasma Unit. The changes in the formatting are a result of a meeting on July 7, 1993, between members of your permitting staff, the Department of Energy (DOE) and LANL staff.

The changes consist of moving portions of the application into attachments. No actual changes in the content of the document were made. The reformatted version of the application does not include the two large-size drawings (RD&D Unit Key Map and Topographic Map). These large-size figures should be retrieved from the previous version of the permit application.

Also, please find enclosed a diskette containing the reformatted application. The material is formatted in Wordperfect 5.1. As with the previous application versions, the application figures and several of the attachments are not on the diskette.

If you should have any questions concerning this transmittal, please feel free to call Jon Mack of my staff at 665-5026, or Tony Grieggs, EM-8, LANL, at 665-0451.

Sincerely,

*J. C. Vozella*

Joseph C. Vozella, Chief  
Environment, Safety and Health  
Branch

LESH:3JM-060
