 Harold Runnel Building  
 1190 St. Francis Drive, P. O. Box 26110  
 Santa Fe, New Mexico 87502

Ms. Sisneros,

This is a request to extend the submittal deadline for the modified closure plan for the TA-35 TSL-85 surface impoundment at Los Alamos National Laboratory from August 5, 1993 to November 3, 1993. We are currently addressing the issues brought forth in your disapproval of the original closure plan, dated June 21, 1993. The extension is requested because the subcontractors and writers of the original plan are no longer in our service and extra time is required to acquaint new people with the technical details of the closure. This matter was discussed with Barbara Hoditschek, Carl Stubbs, and Stephanie Stoddard in a meeting at NMED on July 19, 1993. If you have any questions regarding this request please contact me at 667-5027 or have your staff contact Paul Treat at 667-5808.

Sincerely,

Joseph Vozella  
 Environment, Safety and Health Branch
