TA 35

Dear Ms. Hoditschek

I am an ex-lab employee that was at TA-35 in the middle 70's and the late 80's. After retirement (by the "Mormons" at LANL), I qualified as an Environmental Engineering Specialist for the State of N. Mex. I was hoping to go back to the lab and look over their shoulder. I've attended DOE, LANL and Dept. of Health meetings for the last 6 yrs. Believe me when I tell you that it's Lies & Cover-ups - as usual. They MUST be Watched

**DO NOT TRUST  
DOE or LANL!!!**
