Subject: A Comment about the LANL Open Detonation Permit Modification

I would like to submit the following comment to NMED regarding LANL's Open Detonation permit modification:

Name: Jennifer Awe

Address: 119 Aztec Ave.

City: Los Alamos

Zipcode: 87544

Email: jennifer.sanzi@gmail.com

Phone:

Comment: I am a resident of White Rock, clearly I have a stake in the health of this community.

There seems to be no better place to handle this type of detonation than at a national lab with the brightest minds in explosives research and engineering.

Why would we submit this waste to hazardous transport when the means and expertise is here? Detonating waste on remote Lab property is safer and more efficient than transporting it elsewhere by truck where it will be disposed of in a similar manner.

I hope this request is granted so the Lab can continue its mission and continue its research.
