The EPA has reviewed the RFI Report for Technical Area 39, submitted on April 28, 1995, and found it to be deficient. Attached is the list of NODs in which Field Unit 2 must respond. LAAO is requesting a draft response be submitted for Field Project Coordinator review on March 12, 1996. The response is due to EPA on April 9, 1996. Please have Field Unit 2 coordinate with Everett Trollinger of my staff for this response.

Should you have any questions, please contact Everett Trollinger at 667-5801.
