**Importance:** High

Hope,

I have just confirmed the following:

The areas north and south of AOC 39-002(b) are concrete sidewalk; the area to the east of the AOC is an old asphalt paved area.

Please let me know if you have any additional questions.

Thanks,

**Todd Haagenstad**

Todd

I am reviewing the Phase II Investigation Work Plan for North Ancho Canyon Aggregate Area (LA-UR-10-7869). I have a question at AOC 39-002(b), Former Storage Area. Figure 2.3-2 (Proposed locations of surface and subsurface samples at AOC 39-002(b) shows the AOC location. Are the north and south sides of the AOC (area adjacent to the concrete pad) ground surface or an extension of concrete (e.g., a sidewalk)?

Let me know if you have any questions, I can be reached at 505-476-6045.

Thank you.

Hope
