RE: Approval of January 1992 Amendment to the TA-40 Scrap  
Detonation Site Closure Plan

Dear Mr. Bellows:

On February 2, 1992, the Hazardous and Radioactive Materials Bureau (HRMB) received your amended closure plan, dated January 1992, for the Scrap Detonation Site located at TA-40 on the Los Alamos National Laboratory facility. We requested this copy of the amended closure plan in our letter to you dated December 24, 1991. The amended plan you provided contains changes which affect only Sections 4.1.3.2., 4.1.3.3., and 4.3.3. of the closure plan that we approved on September 13, 1991.

We reviewed the document that you submitted and we agree with the changes you requested. This January 1992 version of the TA-40 Scrap Detonation Site Closure Plan, which contains the changes mentioned above, is acceptable as the approved closure plan.

Please contact Marc Sides of my staff at (505) 827-4300 if you have any questions.

Sincerely,

*Benito J. Garcia*

Benito J. Garcia, Chief  
Hazardous and Radioactive Materials Bureau
