SUBJECT: EXPEDITED NOTIFICATION FOR STRUCTURE 43-0020

Dear Mr. Kieling:

Per our telephone conversation on March 5, 2013 with members of your staff, a corrected copy of the Expedited Demolition Notification submitted February 22, 2013 (ENV-RCRA -13-0034) is attached (Enclosure 1) with the requested administrative changes.

The changes in the letter reference the correct SWMU information of 43-001(a2). The attachments previously submitted were correct and therefore this submittal only replaces the letter and not additional information previously provided. Please replace the former letter with the attached corrected letter.

If you have questions or comments concerning this submittal, please contact Gene E. Turner (DOE) at (505) 667-5794 or Mark P. Haagenstad (LANS) at (505) 665-2014.

Sincerely,

Anthony R. Grieggs
Group Leader

SUBJECT: EXPEDITED NOTIFICATION FOR STRUCTURE 43-0020

Dear Mr. Kieling:

The National Nuclear Security Administration (NNSA) and Los Alamos National Security, LLC (LANS) (collectively the Permittees) are informing the New Mexico Environment Department Hazardous Waste Bureau (NMED-HWB) of the need to expedite the demolition of the structure 43-0020. Funding has been allocated to demolish this structure prior to April 30, 2013. The demolition of the building will not occur until 30 days after NMED has received this notification.

The enclosures (Enclosure 1 and Enclosure 2) attached to this letter satisfy the reporting requirements as outlined in Section 1.17 of the LANL Hazardous Waste Facility Permit (Permit). The requirement at 1.17.1 (7) of the Permit is not relevant at this time, as this notification is not identifying buildings or fixed structures previously identified and not demolished.

The Permittees understand that investigations are not complete at Area of Concern (AOC) 43-001(a2) located within 50 feet of the building proposed for demolition. The Permittees will ensure that the sampling locations and depths proposed in the approved work plans for AOC 43-001(a2) are not affected by the demolition activities. In the case of adverse impacts on AOC 43-001(a2), demolition activities will be documented so that the impacts are identified and evaluated.

Accordingly, if a demolition report is prepared, the Permittees will provide a copy of the demolition report to NMED within 30 days after the report is completed in accordance with Section 1.17.3 of the Permit.

If you have questions or comments concerning this submittal, please contact Gene E. Turner (DOE) at (505) 667-5794 or Mark P. Haagenstad (LANS) at (505) 665-2014.

Sincerely,

Anthony R. Grieggs
