Mr. Curt Frischkorn
Ground Water Pollution Prevention Section
Ground Water Quality Bureau
New Mexico Environment Department
P.O. Box 26110
Santa Fe, New Mexico 87502

SUBJECT: REQUEST FOR TERMINATION, GROUND WATER DISCHARGE PLAN DP-1052

Dear Mr. Frischkorn:

Los Alamos National Laboratory requests termination of Ground Water Discharge Plan DP-1052 for the Land Application of Sanitary Sewage Sludge from the ~~TA-46~~ Sanitary Wastewater Systems (SWWS) Facility. The Laboratory has not land-applied sewage sludge since November, 1995. All sewage sludge currently generated at the TA-46 SWWS Facility is managed as a New Mexico Special Waste in accordance with the New Mexico Solid Waste Regulations (20 NMAC 9.1). Presently, we do not propose to return to land application in the foreseeable future.

Please call me at (505) 667-7969 if you have any questions regarding this request.

Sincerely,

Bob Beers
Water Quality & Hydrology Group
