

TA 48

**Subject:** TA-48 Status Updatet

**Date:** Mon, 28 Oct 2002 09:04:49 -0700

**From:** "Gregory, David R." <dgregory@doeal.gov>

**To:** "lee winn" <lee\_winn@nmenv.state.nm.us>

**CC:** "JOHN Young" <John\_Young@nmenv.state.nm.us>, David Cobrain <David\_Cobrain@nmenv.state.nm.us>, "gabriela@lanl.gov" <gabriela@lanl.gov>, "Paul B. Schumann" <schumannp@lanl.gov>, "Trollinger, Everett" <etrollinger@doeal.gov>, "Le-Doux, Herman" <hledoux@doeal.gov>, "Gregory, David R." <dgregory@doeal.gov>

Ms. Winn:

Analytical results from soil samples collected from the perimeter and fringe areas of the excavation at the subject site are in the process of validation/certification. While these results are preliminary, the benzene compounds and naphthalene that were the initial contaminants of concern, were not detected in any of the nine samples collected - confirming that all contaminated soils were removed.

These data and corresponding sample locations will be included in the report of the actions taken at this TA. A copy of the final report will be forwarded to HWM.

Please call or email if you have questions.

David
