Mike,
SWQB received documents from LANL concerning the contamination and corrective actions at TA-48. Regarding the letter, dated Nov. 13, 2002, requesting a response from SWQB for closure of the site (in accordance with NMWQCC Regulations), we cannot at this time provide such a document until agreement is reached among NMED Bureaus and LANL as to the appropriate regulatory approach. Please contact me if you have any questions.
