Ms. Winn

In as much as the incident at TA 48 was unplanned it was also unfunded. RRES and DOE completed a voluntary corrective action in October as reported to your office through email on October 28, 2002. Until now a funding source for preparation of a completion report has not been available. We are putting together a schedule for final ER actions relative to TA 48 and will forward this information as soon as it is available.

Thanks
