Richard Powell  
New Mexico Environment Department  
Surface Water Quality Bureau  
1190 St. Francis Dr.  
Suite N4050  
Santa Fe, NM 87505

**SUBJECT:** Spill Response Assessment on Domestic Sewage at TA-49, 113 LANL  
report # 172 on 3/22/2007

Dear Mr. Powell:

On March 22, 2007, the New Mexico Environment Department (NMED) was notified of a domestic sewage release at TA-49 Building 113 located at Los Alamos National Laboratory, Los Alamos, New Mexico as required by 20.6.2.1203 NMAC of the Water Quality Control Commission. The discharge was approximately 100 gallons of Domestic Sewage.

The DOE Oversight Bureau has reviewed the spill response action report received on March 29, 2007, and believes the response and cleanup appears adequate. The Oversight Bureau recommends that no further action is required at this time under this discharge notification. However, this letter does not relieve the United States Department of Energy or the Los Alamos National Security, LLC, of its obligation to comply with any other applicable laws and regulations.

If you have any questions regarding this recommendation, please contact Erik Galloway of our Santa Fe office at 505 476-6024.

Sincerely,

A handwritten signature in cursive script that reads "Stephen Yanicak".

Stephen Yanicak  
Staff Manager/POC
