James Bearzi, Bureau Chief
 Hazardous Waste Bureau
 New Mexico Environment Department
 2905 Rodeo Park Drive East, Building 1
 Santa Fe, NM 87505-6303

Subject: 15-Day Sampling Notification for Sites at Technical Area 49

Dear Mr. Bearzi:

On October 5, 2009, Los Alamos National Laboratory (the Laboratory) plans to initiate soil sampling in support of the "Investigation Work Plan for Sites at Technical Area 49 Outside the Nuclear Environmental Site Boundary" and the "Investigation Work Plan for Sites at Technical Area 49 Inside the Nuclear Environmental Site Boundary." Both of the approved work plans are being implemented by a single subcontractor, and the work will be executed in parallel.

The Laboratory will verbally notify the staff of the New Mexico Environment Department Hazardous Waste Bureau of any changes to the schedule. If you have any questions, please contact Stephani Fuller at (505) 412-8937 (sfuller@lanl.gov).

Sincerely,

Dave McInroy, Program Director
 Environmental Programs – Corrective Actions Program
 Los Alamos National Laboratory
