**Subject:** RE: P&A of TA-49 Boreholes

Stefani,

NMED concurs with the Permittees proposal to plug and abandon all boreholes drilled during the Phase I investigations at TA-49.

Please let me know if you have any questions or concerns.

Katie

**Subject:** P&A of TA-49 Boreholes

Katie,

Per our teleconference today, LANL will proceed with the plugging and abandonment of all boreholes drilled during the Phase I investigations at TA-49. None of the existing boreholes are needed for the Area 12 vapor sampling proposed in the investigation report for inside the NES.

Please confirm this is correct and we will proceed accordingly.

Thanks,  
Stephani
