MEMO

**To:** Stu Dinwiddie, Manager, RCRA Permits Management Program  
**From:** BENITO J. GARCIA *BAG*  
**Subject:** VCA Completion Report for TA-49, PRS 49-008(d) Activities  
**Date:** December 3, 1997

Based on the submittal, if the RCRA constituent concerns are addressed then the outstanding consideration would be the radiologic components. Based on previous EPA recommendations it appears that we could allow the NFA. However, from the state perspective I believe that the radiologic concerns should be addressed prior to an NFA being issued to LANL/DOE for the referenced site. Please coordinate a review of this proposed NFA with Janice Archuleta and if you and staff buy off on the RCRA components being eligible for NFA and Janice does the same for the rad components then we can issue NFA, if not then we need to discuss next steps for this proposal.

cc: Janice Archuleta
