Santa Fe, NM 87501

**SUBJECT: ASPHALT REMOVAL AND SITE REGRADING AT TA-49,
MDA AB AREA 2**

Dear Mr. Garcia:

The Material Disposal Area (MDA) Focus Area is planning the following field activities at Technical Area (TA) 49, MDA AB, Potential Release Sites

(PRSS) 49-001(b, c, d, and g):

- removal of the asphalt cap,
- leveling of the low areas with fill,
- grading the site for proper drainage, and
- vegetating the disturbed areas.

The approach has been discussed with members of your staff and is scheduled to begin on or about September 14, 1998, and continue for approximately 90 days. The asphalt will be removed and disposed at TA-54 as low level radiological waste. Radiological screening will be conducted in the field for worker health and safety. Sampling will not be conducted at this time.

If you have any questions or concerns, please call me at (505) 667-0819.

Sincerely,

David McInroy
