Mr. John Young
NMED-Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

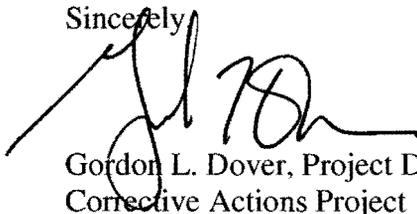

Subject: Fifteen-Day Sampling Notification, Material Disposal Area C, Solid Waste Management Unit 50-009, at Technical Area 50

Dear Mr. Young:

The Los Alamos National Laboratory Environmental Programs Directorate-Corrective Actions Project is planning to begin Phase II fieldwork activities at Material Disposal Area (MDA) C. This work is being conducted in accordance with the "Phase II Investigation Work Plan for MDA C," submitted in July 2007 (ER2007-0453). The work plan was approved with modifications by the New Mexico Environment Department on August 13, 2007. Additional core and pore-gas samples will be collected from 14 boreholes, and surface soil samples will be collected across the site. The Phase II field campaign is scheduled to begin on or about November 13, 2007. The duration of the fieldwork will be approximately 3 months.

If you have any questions regarding this fieldwork, or if you wish to arrange a site visit, please contact Kent Rich at (505) 665-4272 (krich@lanl.gov).

Sincerely,

Gordon L. Dover, Project Director
Corrective Actions Project
