**RE: APPROVAL  
EXTENSION REQUEST  
TO COMPLETE THE INSTALLATION OF  
REGIONAL AQUIFER WELL R-59  
LOS ALAMOS NATIONAL LABORATORY  
EPA ID#NM0890010515  
HWB-LANL-11-GW-MISC**

Dear Messrs. Rael and Graham:

The New Mexico Environment Department (NMED) is in receipt of the United States Department of Energy (DOE) and Los Alamos National Security, L.L.C.'s (collectively, the Permittees) document entitled *Request for Extension to Complete Well R-59 (Completion)* dated October 6, 2011 and referenced by EP2011-0339.

The Permittees request the extension to submit the Report due to the need to focus on removal of transuranic (TRU) waste from Technical Area (TA) 54 to the Waste Isolation Pilot Plant, located in Eddy County, New Mexico. The need to remove TRU waste stored at TA-54 is aligned with Governor Martinez' policy to prioritize groundwater and surface water protection and accelerate the removal of TRU waste stored at Los Alamos National Laboratory.

The Permittees stated cause for the requested time extension is acceptable. The submittal

date for the Report is hereby postponed from November 30, 2011 to **November 30, 2013**, as requested. The Permittees must notify NMED, within 30 days of receipt of such information, should funds become available in the future that allow for the installation of Well R-59 to be completed prior to November 30, 2013.

Please contact Dave Cobrain at (505) 476-6055 if you have questions.

Sincerely,

John E. Kieling  
Acting Chief
