

OFFICE MEMORANDUM

TO : C. A. Reynolds, Group Leader, ENG-4

FROM : Dean D. Meyer, Group Leader, H-1

SUBJECT: ADDITIONAL DISPOSAL WELLS IN AREA C

SYMBOL : H-1

DATE: September 17, 1963

LASL-AEC-OFFICIAL

In my letter of September 5, 1963 I asked for additional disposal wells in Area C. As a result of discussions with C. W. Christenson and yourself, please disregard the September 5, 1963 letter and provide the following.

Please drill 10 disposal wells in Area C. These wells are to be 3 feet in diameter and 25 feet in depth. Also drill an additional 10 disposal wells in Area C which are 3 feet in diameter and 25 feet in depth. In these latter ten wells insert a 12 inch diameter metal liner and fill the outer space with concrete to give a 12-inch wall thickness. The bottom of the hole is to be 12 inches of concrete.

Please contact ENG-3 for location of the wells.

Dean D. Meyer
