

OFFICE MEMORANDUM

TO : C. A. Reynolds, Eng-4
through : Dean Meyer, Group Leader, H-1

FROM : John Enders, H-1

SUBJECT: Request for work order

SYMBOL :

DATE: 5/28/65

Would you please write a work order to have the following work performed?:

Furnish labor and materials to backfill disposal wells in Area C with cement to ground level. Cement to be rounded up over wells to promote water drainage away from wells. Approximately 3 cubic yards of cement will be needed.

Disposal wells to be filled are #88, 90, 91, and 92 (3' diameter holes) and well #98 (12" diameter well).

Contact CMR Bldg. H-1 Section office prior to start of work in order that a Health Physics Surveyor may be assigned to supervise the work.

John Enders
