FROM: Robert Kirkpatrick, Air Quality Bureau
SUBJECT: Information Request - LANL HazWaste

Attached is a copy of a request from the Taos County Attorney for information on hazardous waste incineration at Los Alamos. We have not received an air quality permit application for this project.

I am referring Mr. Zangara's request to you for any pertinent information you can make available to him.

AIR QUALITY BUREAU

Dear Cubia:

Please be advised that the Taos County Board of Commissioners will make its Chambers available for hearings upon the proposal of the Department of Energy for construction of solid waste burners at Los Alamos, New Mexico. Hearings may be held in the evening or during business hours on any day except April 12, 1988.

Also, please accept this letter as a request that Taos County be informed of any air discharge permits sought by the Department of Energy in the future. I understand that the Department of Energy has also sought a permit for construction of a second hazardous waste incinerator at the lab and the request for information is intended to seek information concerning this project as well as any future projects.

Sincerely,

Kevin A. Zangara
