Santa Fe, New Mexico

Dear Sir,

I along with a growing number of concerned citizens are outraged by the unregulated burning of radioactive material at Los Alamos National Laboratories. I demand that the EID issues an emergency order to prevent the burning of these waste until the State of New Mexico can adopt standards in a public forum to regulate it. I also demand as my right as a citizen, that the upcoming hearings on the incinerator concern both the hazardous waste and radioactive permits.

Sincerely,

James A. Dreisbach-Towle
