HAZARDOUS WASTE SECTION

C. Kelly Crossman
Hazardous Waste Section EID
1190 St. Francis Dr.
Santa Fe, NM 87503

Dear Mr. Crossman -

Regarding the LANL incinerator:

1. Any hearing relating to the incinerator should include both the hazardous waste and radioactive permits.
2. EID should issue an emergency order preventing the burning of radioactive waste until the State adopts standards, in a public forum, to regulate it.

We need to have regulations for radioactive emissions, and we need everyone, including the LANL, to abide by them!

Sincerely,

Leona Luba
