Santa Fe, NM 87501

Dear Mr. Mitzelfelt,

I hope you will act on behalf of the many citizens who are alarmed that the state has no regulations on radioactive emissions and that the state is allowing LANL to proceed without any regulations, whatsoever.

This is especially alarming now that we are all seeing the naive & dangerous incaution that has surrounded the containment & storage of radioactive waste since it came into existence.

I wish you clear thinking and courage. ~~Netta Richards~~ →
