HAZARDOUS WASTE SECTION

Dear Mr. Crossman:

I protest strongly the way your division has arranged the hearing on the permit for Los Alamos labs to continue defiling our environment. It is one more attempt of a ^{NON-}~~non-~~democratic government to shut out public input.

I moved here to save my life, to find peace in nature. You and your kind are destroying us. For god's sake, stop raping the universe before it is too late.

Sincerely,

Connie Janssens
