Richard Mitzelfelt
1190 St. Francis Drive
Santa fe, NM 87503

Dear Mr. Mitzelfelt,

I am writing to request that the EID issue an emergency order to prevent the burning of radioactive and toxic waste until the State of New Mexico can adopt standards in a public forum to regulate it. I am aware that this kind of incineration went on for years in Los Alamos. I have lived in Santa fe for more than 10 years. I understand that we have released extremely hazardous carcinogens into the air we breathe in our ignorance. We have more information now. Let's not let our ignorance spoil our most important resource. Please act on our behalf.

Thank you.

Sincerely,
Jean Janu
