Dear Sirs,

I oppose the processing of applications for nuclear waste incinerators. New Mexico has placed a moratorium on all such incinerators and I do not feel that the Los Alamos National Laboratory should be exempt from this. As citizens of Taos County, we are especially concerned about this proposed incinerator because of the westerly winds that will blow these particles directly to our area. We request that you deny the Los Alamos National Laboratory application for such an incinerator and that you do not process any future requests.

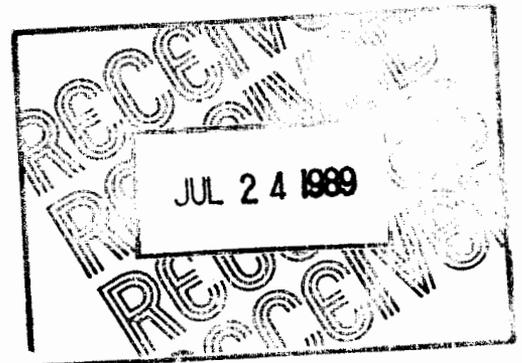

Sincerely,

Alice E. Meador
