

Dear Mr. Crossman,

I am writing because I am a concerned citizen who lives too close to the Los Alamos Incinerators. As a resident of Santa Fe, I'm sure I speak for many people here as well as the rest of our Land of Enchantment (not for long if the incinerators kick up spewing radioactive & dangerous chemical wastes) against granting permits for poisoning our people, animals, land, air & water.

Sincerely,

LISA K. FLYNN
