

Telephone  Personal Time 4 pm Date 10/27/89

Originating Party: Connie Soden DOE, Chief Env Prog Branch 846-1106  
Other Parties: Al Gordon EITC  
Subject: letter Wade

Discussion: letter has been written; is a matter of getting signatures

Plans to ~~use~~ use CAI for low level, transuranic mixed ~~to~~ wastes & hazardous waste all of these  
past thinking of dedicating CAI to radioactive waste has been abandoned <sup>partly</sup> because new incinerator is <sup>going to be</sup> not on line for sometime and the CAI is the only one they can use. New incinerator has not been funded.

Conclusions or Agreements: EA <sup>question</sup> supplement EIS be written; in early 1970 did an EIS for this incinerator; if there is an EIS a new one is <sup>supplemental</sup> a draft NEPA document on lowwaste done later & mentions CAI as being dedicated to transwaste; this NEPA document is no longer; will send us a copy of that first EIS

Distribution: Signed Al Gordon

LANL file copy with letter in materials sent to Richard Mitzeloff
