TA 50

Dear Ms. Hoditschek:

Subject: Resource Conservation and Recovery Act, Permit NM ID# NM0890010515-1,
Partial Closure Plan Revision, Controlled Air Incinerator, TA-50, Building 37,
Los Alamos National Laboratory

The purpose of this letter is to inform you of changes in strategy regarding the closure of the Controlled Air Incinerator (CAI) located in Building 37, TA-50. We are now planning to complete closure of this facility, including the cessation of the Environmental Protection Agency's authorization to incinerate PCBs in the CAI, and remove the equipment associated with the incineration process.

As agreed during our discussions on this matter December 15, we will address the needed changes in our previously submitted Closure Plan in a letter to you on or before January 12, 1996. This will include the submittal of errata pages to insert in the Closure Plan submitted.

Should you have any questions, please contact me at (505) 665-5042.

Sincerely,

J.L. "Jody" Plum
