RE: Public Service Announcement - Class 3 Modifications to the Los Alamos National Laboratory RCRA Permit

Dear Sir/Madam:

Please announce over the radio, between 7:00 a.m. and 6:00 p.m. Friday, September 27, through Monday, November 11, 1996, the following public service announcement:

The New Mexico Environment Department is proposing to approve a Class 3 Modification to the Resource Conservation and Recovery Act (RCRA) Permit to Los Alamos National Laboratory (LANL). The effects of the modifications will be:

- (1) to bring the Permit up to date with equipment upgrades performed on the Controlled Air Incinerator, TA-50, Building 37. The Modification will have no effect on Permit language or on-going closure activities; and,
- (2) to add structures/pads #36 and #58 to the permitted hazardous and mixed waste storage at Technical Area 54, Area L. This will not result in increased storage capacity.

Detailed information on this activity is available in tabular form. The modifications and a fact sheet are available locally at the following locations:

- LANL Community Reading Room
1350 Central Avenue, Suite 101, Los Alamos, NM 87544
- Mesa Public Library
2400 Central Avenue, Los Alamos, NM 87544
- Hazardous and Radioactive Materials Bureau library
