Dear Ms. Ely and Mr. Bearzi:

Thank you for expressing interest in visiting the Beryllium Technology Facility at the Los Alamos National Laboratory (LANL). We believe this will be an excellent opportunity to discuss health and safety issues specific to workers, inspectors, auditors, and visiting personnel involved with beryllium work. We would like to schedule a two-hour tour and discussion for early November, prior to start-up of the facility, and to accommodate your schedules. Tentative dates are Wednesday November 3rd, Thursday November 4th, Friday November 5th, Tuesday November 9th, or Wednesday November 10th.

Please let either of LANL's points of contact, Jack Ellvinger (667-0633) for RCRA or Leland Maez (665-1240) for Air Quality, know your preference.

Stephen Fong
Office of Environment

Sincerely,

H. L. "Jody" Plum
