Mr. Carl Will
Permits Management Program
New Mexico Environmental Department
Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, New Mexico 87505-6303

Dear Mr. Carl Will:

Subject: Status of TA-50 Units

The purpose of this letter is to relay to you the status of the units contained in the permit application. As we discussed in our meeting on May 23, 2002, the status of those units is changing. Instead of permitting five units at TA-50, the laboratory is now planning on only permitting two of them. The following is a list of units at TA-50 and the proposed path that the laboratory will pursue for each of them.

- TA-50-1-59 will be closed as a storage unit but will be used as a <90 day storage area.
- TA-50-114 will be closed as a storage unit but will be used as a <90 day storage area.
- TA-50-37 will be closed as a storage unit. No plans for further use of this unit are currently existing
- TA-50-69 Indoors will continue with the permitting process. This unit is scheduled for closure within the next 18 – 24 months.
- TA-50-69 Outdoors will continue with the permitting process. This unit is scheduled for closure within the next 18 – 24 months.

If you should have any questions concerning the above information please contact me at 667-0633 or at jee@lanl.gov.
