

## NOTICE OF CLASS 1 MODIFICATION APPROVAL

The New Mexico Environment Department's Hazardous Waste Bureau has approved a Class 1 modification to the Los Alamos National Laboratory's Hazardous Waste Facility Permit. The modification removes four container storage units from the Permit because they were never constructed. These units were to be known as Technical Area 50, Buildings 137, 138, 139, and 140.

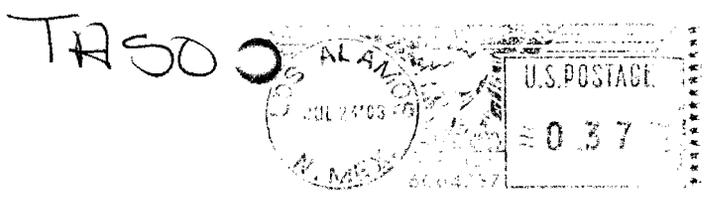

Because the units were never constructed, removal of the units from the Permit is an administrative change and a Class 1 permit modification under 20.4.1.900 NMAC (incorporating 40 C.F.R. § 270.42(a)). Approval for this modification was granted on April 21, 2003 in a letter received April 28, 2003.
