**RE: Revised Permit Fee for Mixed Waste Surface Impoundment
TA-53**

Dear Mr. Bellows:

Enclosed is the revised permit processing fee of \$25,000.00 for one mixed waste surface impoundment (Radiation Lagoon) located at TA-53 at your facility. We understand that the Department of Energy/Los Alamos National Laboratory (DOE/LANL) plans to close the two sanitary lagoons also located at TA-53.

At a meeting held in Santa Fe on November 2, 1992, DOE/LANL representatives indicated that the length of time for continued operation of the Radiation Lagoon is still in question. If LANL/DOE decides to also close the Radiation Lagoon then the permit fee will not apply, and DOE/LANL may forward a schedule for submitting a closure plan to NMED by the November 23, 1992. The permit fee and your formal request to withdraw the sanitary lagoons from the permit process with a schedule for submitting the closure plan for the two units, or your formal request to withdraw all three units from the permit process with a closure plan submittal schedule for all three units is due in our office on November 23, 1992.

Please contact Mr. Marc Sides at (505) 827-4308 if you have any questions.

Sincerely,

Barbara Hoditschek
Permit Program Manager
Hazardous and Radioactive Materials Bureau
