Ms. Stephanie Kruse
New Mexico Environment Department
Hazardous and Radioactive Materials Bureau
525 Camino de los Marquez
Santa Fe, New Mexico 87502

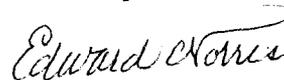

Dear Ms. Kruse:

At our meeting on May 12 to discuss the closure plan for the TA-53 surface impoundments, a question arose about whether the New Mexico Environment Department had a copy of the April, 1992, sampling results. It is my understanding that a copy was not located in your Department. Therefore, I am enclosing two binders that contain a copy of all the sampling results.

Another question from that meeting concerned the effective dates applicable to characteristic and listed wastes under the 1987 clean closure regulations. Ms. Shanley asked me to send you the enclosed April 1, 1988, memorandum on this subject from the Environmental Protection Agency.

Please let me know if there is additional information you would like me to send.

Sincerely,

Edward Norris
