

6
OFFICE MEMORANDUM

TO : Mr. Daggett, ENG-4

DATE: June 11, 1970 133

FROM : John Enders, Leader, CMR BLDG. Monitoring Section, H-1

SUBJECT: REQUEST FOR WORK ORDER

SYMBOL : H-1-CMR

Would you please write a Work Order to have ten three foot diameter shafts drilled in Area G?

The suggested location would be in north-south a line directly west of shafts #1 through #14. ENG-2, however, will have to indicate the location of the shafts.

The CMR BLDG. H-1 Section office will have to be notified (phone 4093 or 4482) prior to planned entry to Area G in order to assign a Health Physics Surveyor to Area G.
