

OFFICE MEMORANDUM

TO : Charles A. Reynolds, Group Leader, ENG-4 DATE: Feb. 9, 1972

FROM : Dean D. Meyer, Group Leader, H-1

SUBJECT: STABILIZING WASTE DISPOSAL AREA, TA-54

SYMBOL : H-1-72-24

As you may have noticed during flights on Ross Aviation between Los Alamos and Albuquerque, our waste pits at TA-54 remind one of strip mining. The visual impact on the environment has been rather drastic. Please estimate how much it would cost to level, seed and water some type of vegetation cover on the areas outlined in ink on the attached photo.
