TA-54

At the request of Charlie Steen, archaeological consultant to H-12, we would like to confirm the archaeological salvage schedule for this coming spring-summer period.

As outlined in Memo H8-77-264, we plan to have Charlie salvage Site LA-4627 at TA-54 during 1978 at a cost of:

Zia labor	90 man-days @ \$100/man-day	= \$9,000
Steen	30 man-days @ \$100/man-day	= <u>3,000</u>
		\$12,000

We assume that funding of these costs will be provided by Account 7106, Zia Indirect, Miscellaneous Inspections as outlined in P. H. McConnell's memo of February 4, 1976 and which covered the operations last year and during 1976. We will coordinate the operation through Steen.

WCH/mlk
