Barbara Hoditschek, Program Manager
RCRA Permits Program
Hazardous and Radioactive Materials Bureau
New Mexico Environment Department
525 Camino de los Marquez
Santa Fe, NM 87502

Dear Ms. Hoditschek:

This is to inform you that the Los Alamos Area Office and the Los Alamos National Laboratory will not be submitting our ~~hazardous waste permit application for the remaining unpermitted~~, existing mixed waste management units at Technical Area 54, Area G, this October. We are continuing to develop the Waste Analysis Plan to ensure consistency with the state's requirements and that document will not be finished until after the first of the year. We will notify you in writing as soon as possible when we have determined our completion date, and at that time, we will propose a schedule for submitting the application to you.

If you have any questions, please call me at 665-5026.

Sincerely,

Jon Mack
