**Re: RFI Report for Channels from MDA-G, MDA-H, MDA-J, MDA-L

Dear Mr. Todd:

The New Mexico Environment Department (NMED) has partially completed a review of Los Alamos National Laboratory's (LANL) RFI Report for the above listed channels in TA-54.

NMED has determined that there are Surface Water concerns in these channels. HRMB has asked for comments from the Surface Water Bureau on the recommendations in this document before making any final determinations concerning approval or issuance of another NOD.

Should you or your staff have any questions concerning this matter please contact myself, or Ms. Barbara Hoditschek, Ms. Teri Davis, or Mr. Robert S. (Stu) Dinwiddie of my staff at the above address or by telephone at (505) 827-1561.  
Sincerely,
