Driscoll of the EPA regarding the proposed modifications to the Resource Conservation and Recovery Act Facility Investigation Work Plan for Operable Unit (OU) 1148. The list of attendees is shown on the attachment.

The minutes are considered to be complete and I do not intend to change them unless there is something misstated. The final proposed modifications for the OU 1148 Work Plan will be sent to the EPA as soon as possible. Also, as promised, the data requested by Barbara regarding the passive air sampling will be submitted by the end of the month.
