**Subject:** RE: R-38 Proposed well design

Mark,

This email serves as NMED approval for installation of regional well R-38 as proposed in the figure attached to the original email received by NMED today (November 10, 2008 at 3:57 pm). This approval is based on the information available to NMED at the time of the approval. NMED understands that LANL will provide the results of preliminary sampling, any proposed modifications to the well design proposed in the above-mentioned email, and any additional information related to the installation of well R-38 as soon as such information becomes available. Thanks.

**Subject:** R-38 Proposed well design

Gentlemen,

Here is our proposed well design for R-38. We are preparing a write-up of our rationale in siting the screen at this depth and will forward it to you when it is ready. Meanwhile, I thought you might like to take a peek at what we are thinking.

Please call with any questions or comments.
