**Subject:** Additional Investigations at MDA H

Steve

For the additional investigations required by NMED at MDA H, you may use letter-format similar to the GW drilling work plans. NMED will accept the work plan in a letter format for borings at MDA H. Please call me if you need further clarifications.

Thanks, Neelam

Neelam,

The June 23, 2009 letter states that the work plan must comply with Section XI.A of the Order; however, I understand from informal conversations between LANL and NMED that a letter-format work plan (similar to the ground water drilling work plans) was acceptable.

If you would, please let me know what format NMED is expecting the work plan so that LANL can provide a compliant document.

Thanks,

Steve Paris
