**SUBJECT: NOTIFICATION OF PLANNED START OF A RADIOLOGICAL AIR
EMISSIONS POINT SOURCE AT TECHNICAL AREA 54, DOME 375**

Dear Mr. Brozowski,

This memo serves as a Notification of Startup under 40 CFR 61.09(a)(1) for a new point source of emissions for radiological waste processing activities at Technical Area 54 (TA-54), Dome 375 at the Los Alamos National Laboratory (LANL or the Laboratory). Section 61.09 states:

61.09 Notification of Startup.

(a) The owner or operator of each stationary source ... shall furnish the Administrator with written notification as follows:

- (1) A notification of the anticipated date of initial startup of the source not more than 60 days nor less than 30 days before that date.
- (2) A notification of the actual date of initial startup of the source within 15 days after that date.

The anticipated start date for operations is August 27, 2012. Under 61.09(a)(2), we will be notifying you of the actual start date shortly after operations commence. These waste processing activities were described in detail in our Application for Pre-construction Approval dated June 8, 2011. We received EPA approval of the pre-construction application on July 18, 2011.

Mr. George Brozowski
ENV-ES-012-0151
