To LANL 2012 file:

Dave Cobrain and I discussed the subject temporary authorization request with the Permittees the week of November 12<sup>th</sup> during a phone call. I told them that based on the information submitted by the Permittees, we cannot determine that a temporary authorization is necessary to meet at least one of the objectives in 40 CFR §270.42(e)(3)(ii)(A-E). The Permittees said they would get back to us. To date, I have not heard back from them.
